

## ATO/ATC Fuse Holder

### CUSTOM CHIEF SOLUTION

The new Chief weatherproof ATO/ATC fuse holder is the circuit protection solution the industry has been waiting for. With push-to-seat terminals and TPAs, our ATO/ATC fuse holder allows for maximum terminal retention and effortless wire processing. What's more, its compability with a widely used cover makes it easy to retrofit into existing designs.

#### Specifications

**Compatible Cap:** Delphi™ 12033731  
**Temperature Range:** -40 to 125° C Ambient  
**Wire Sizes:** 22 to 10 AWG Wire  
**Terminal System:** TE MCP 6.3  
**Electrical Load:** Up to 40 Amps

#### Competitive Advantages

- Push-to-Seat Terminals
- High Impact Nylon Body
- Silicone Radial Seal
- Optional Terminal Lock (TPA)
- Water & Dust Resistant
- Replaces Various Part Numbers\*
